Watchman on tug *Aylmer* and living-scow, at $30 and $15 board: E. Charbonneau, Dec. 12-Mar. 31	164 04
Watchmen on dredge and plant, at $30, and $15 board; E. Guimond, Dec.-Mar. $180; John Lavergne, Dec.-Mar. $180; Paul Léon, Dec.-Mar. $180	540 00
Carried forward	104,111 94

Dredge Vessels : Ontario and Quebec—*Continued.*	$ cts.
Brought forward	104,111 94
Dredge 'Deschenes'—Continued.	
Engineers at $80, Jos. Rhéaume : Mar. 1 to 15, 1911 : 9 days	23 26
Baillie, Jas.: rent of land for repairing dredge and scows $50 ; wood, 10 loads at $1.50, 5 loads at $2 ; lumber &c. $120.98	195 98
Cohen, L. & Sons : steam coal, 210·375 net tons at $4.45	936 17
Domn. Wire Rope Co.: 1-in. Lang's ex. flex. plow steel cable, 600 ft. at 19·65c.; reel $1.60	119 50
Graveline, Nap.: carting coal, 405 tons at 35c.; sundry $15.33	157 08
Harris & Barry : mattresses, 18 at $3 ; pillows, 12 pr. at $1.50 ; sundry $25.40	97 40
Heney, John & Son, coal : lump, 40·43 net tons at $5.75 ; 4·9 tons nut, $40	272 47
Lewis Bros.: one twin marine safety valve, 1½, for 125 lbs. pressure	36 00
Lindsay, S. G.: services of tug *Lillian*, May 2 to Aug. 20, 1910, 111 calendar days at $8 ; one piece boom-timber $3.50	891 50
Ottawa Fireproof Supply Co.: 1¼-in. ex. flex. c. c. s. wire rope, 200 ft. at 29c.; waste, 25 lbs. at 12c.	61 00
Ritchie, R. & T.: wood, 44 cords at $1.75 ; lumber $16.86	93 86
Watt, Chas.: steel range $37.50, refrigerator $10, sundry hardware $82	129 50
Foundry work : A. Girard $419.75, Wm. Kennedy & Sons $107.12, G. Law $150.95, T. Lawson & Sons $49.97, P. J. Powers & Co. $136.11, Victoria Foundry $173.39	1,037 29
Hardware : C. Devlin $62.87, Gen. Supply Co. $34.78, sundry $17.33	114 98
Travel and outlay : Wm. Laurie $9, sundry $15.15	24 15
Canvas $29.58, oil $27.88, lettering $7.88, 2 doors $7.50	72 84
Dredge 'Deschenes' : Dump Scows ($4,663.17).	
Baillie, Jas.: construction of two side-dumping hopper scows, delivered at Aylmer	4,550 00
Lawson, G.: foundry work, March, 1910	113 17
Tug 'Dora' (on Lake Temiskami) ($256.33).	
G. T. Ry. freight $2.24 ; Law, G., 42 grate bars, 1,776 lbs. at 3½c	64 40
Lawson, T. & Sons : propellor-wheel, 510 lbs. at 5c., 84 hrs. at 60c.; sundry $20.58	96 48
Weir, J. & R.: two 4½ ft. propellor-wheels	95 50
Dump Scows Nos. 1 & 2 ($654.11).	
Cantin, A., Canada Marine Works, Montreal :	
Dumper No. 1 : entrance $30 ; 7 d. at $10 ; foreman 58 h. at 50c.; carpenters and caulkers 523 h. at 40c.; materials $70.59	408 79
Dumper No. 2 : entrance $30 ; 6 d. at $10 ; foreman 22 h. at 50c.; carpenters and caulkers 296 h. at 40c.; materials $25.92	245 32
Tug 'Eileen' ($204.89).	
Chaudiere Machine and Foundry Co. : four cast-iron propellor blades, $101.70 ; one 52-in. propellor wheel, $44.84	146 54
Gerard, A., one 52-in. cast-iron propellor wheel	39 82
Powers, P. J. & Co. : 72 x 30 sheet steel, 650 lb. at 2·85c	18 53
Tug 'Fashion' ($9,165.53).	
Dominion Dredging Co. : purchase of tug *Fashion*, 60 x 16 x 8 ft., rebuilt in 1906, boiler built in 1909	8,000 00
Buckly, Jas., soft coal, 18 tons at $4	72 00
Cantin, A. : entrance $30 ; dockage, 1 d. at $10 ; labour $26.90 ; material $7.69	74 59
Gen. Supply Co. : boiler feed pump $75, 9 wrenches $5.88	80 88
Howe, J. G. : graining and varnishing $20.20 ; lettering, 7 letters at 87½c	26 33
St. Denis, Capt. Ben. : piloting *Fashion* and *No. 5*	10 00
Foundrywork : Derochie Bros. $39.45, A. Gérard $209.26, Victoria Fonndry $323.80, J. & R. Weir $211.85, sundry $45.26	879 62
Hardware $14.35, coal $5.39, freight $2.42	22 16
Yacht 'Fast' ($3,712.86).	
Repairs, March, 1910, at $1.60 : O. Bonin 8½ d., A. Parent 8½ d	26 80
Repairs, Apr. 1 to June 23, 1910 : 1st carpenter, J. Benoit, 68½ d. at $2.25 ; carpenters, 257·15 d. at $2 ; painters, 74¼ d. at $2 ; labour, O. Bonin, 41·45 d. at $1.60	883 24
Captain at $65 : E. Duguet, June 19-25, $15.17 ; Albert Gosselin, July 5 Nov. 15, $284.20	299 37
Engineer at $75, Adelard Paul, June 17 to Nov. 19, 1910	382 50
Deckhand at $30, Horace Lavoie, July 11 to Nov. 10, 1910	129 37
Cook at $40, Ernest Turcot, June 14 to Nov. 21, 1910	210 77

Victoria Museum: Geo. Goodwin.

AUDIT OFFICE, OTTAWA, October 6, 1911.

SIR,—Let me acknowledge receipt of your application No. 585 for $19,726.38 in favour of Geo. Goodwin for work on Victoria Museum, as follows:—

Balance on main contract of $950,000	$ 5,419 90
Nine items of extras	14,307 48

By section 5 of the contract, written orders are needed for extras, fixing the price before the work is begun. Please let me have copies of these orders, as usual.

The following items of extras relating to the sinking of part of the foundation:—

B.—Re-cutting and re-setting interior of stonework in east and west porches	$746 75
D.—Re-building parts of walls and enamelled brickwork	4,947 44
E.—Marble and mosiac	187 90

Please explain why you have not considered these items as shut out by section 14 of the contract, namely: 'The contractor shall be at the risk of, and shall bear all damage whatsoever, from whatsoever cause arising, which may occur to the works, or any of them, until the same be fully and finally completed and delivered up.'

Your obedient servant,

The Deputy Minister of Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, November 6, 1911.

SIR,—With reference to your letter, under date of October 6, concerning application No. 585, Victoria Museum contract, I have the honour to inclose, for your information, a memorandum from the Chief Architect which will acquaint you with the particulars of each of the items of extras for which payment is asked.

I may say that no written orders were given for the extras in question, for the reason that the nature of the work to be done was such that it was not possible to fix a price before its commencement. The work was carried out under the personal supervision of a member of the Chief Architect's staff, and close and accurate check kept on the materials and labour entering into it.

Referring to clause 14 of the contract, to which you direct attention, I need not point out to you that its terms are exceptionally broad and comprehensive, and are such that if applied literally would undeniably, in many cases work the gravest injustice to contractors. It has always been the practice of the department to place a fair and equitable interpretation on this clause, having regard to the facts and circumstances of the particular work under consideration. When, as is the case in the present instance, due precaution was taken to ascertain the nature of the soil, careful calculation made to determine the load to be carried, and the footings made of a size considered ample to support the load, provided the contractor carries out the work of construction in accordance with the plans and specifications, and both materials and workmanship are in all respects equal to the standard called for, it would be manifestly unfair, if the ground did not sustain the load anticipated and the building settled, to hold the contractor responsible and liable for extra expenditure entailed by such settlement.

I trust, upon further consideration, you will see your way clear to authorize payment of the application in question.

I am, sir your obedient servant,

The Auditor General. J. B. HUNTER, *D.M*

CHIEF ARCHITECT'S OFFICE, OTTAWA, Nov. 3, 1911.

Memorandum re *additional work included in final estimate for Victoria Memorial Museum.*

Item A, $1,296.02—additional columns under circular part of the gallery.—After the work had been executed as called for by the contract it was considered advisable to add four (4) additional columns under the circular part of the gallery, and the work required was such that it was not possible to arrive at an accurate estimate of the cost. The rate charged for the steel, 6½ cents per lb., is the ordinary price for this class of work; and a check was kept of the time taken to do the work, and the price, $1,296.02, is fair and reasonable.

Item B, $746.75.—This work was required, owing to the settlement of the building. The work was done and material supplied; time charged has been checked and certified correct.

Item C, $1,055.12.—The skylights were made according to the original plans, but it was found after they were delivered that the sizes of the lights as constructed were too large for the wire glass manufactured. The skylights had to be divided with steel and copper ribs to suit sizes of wire glass.

Item D, $4,947.44—enamelled brick in basement.—Owing to settlement of the building, this work had to be done at various times as found necessary, and owing to the class of work an estimate of the cost could not be made. The principal item of cost is workmen's time, as the brick taken down were cleaned and rebuilt.

Item E, $187.90.—This expense was due to the settlement of the building.

Item F, $125.—The contractor supplied the hinges for vestibule doors as specified and put them on. These hinges were found to be too light for the proper working of the doors, and stronger hinges were supplied by the contractor; the original hinges were given to Mr. Shearer, as they can be used on ordinary doors.

Item G, $3,580.—This was required to strengthen the floors in the sub-basement, and the rate charged is the ordinary and usual charge for concrete for this class of work.

Item J, $2,060.80.—According to contract, the winter sashes were to be made in one piece, with sliding pane, and these would have been very large and difficult to handle. Since this contract was awarded, a different style of winter sash has been adopted. These are now made in three parts; the upper part being fixed and the two lower parts are hinged, and this style of winter sash has been found to be very satisfactory.

Item H, $308.50.—These repairs had to be made owing to the settlement of the building.

The time taken to do the various works referred to in items A, B, C, D, E, F, J, and H, and the materials supplied for said work have been checked and found correct, and the prices paid for the materials are fair prices, and the rate of wages are the usual wages allowed first-class workmen.

D. EWART, *Chief Architect.*

AUDIT OFFICE, OTTAWA, Nov. 27, 1911.

SIR,—In further discussion of Mr. George Goodwin's final estimate for the Victoria Museum, and of your letter of November 6, in connection therewith:

The written orders required by the contract would have two salient features, as follows:—

First, the description of the work by the Chief Architect. That is to guard against the possibility of the contractor performing extra work without instructions, on the chance of getting paid subsequently.

Second, the fixing of the price. If it is not found expedient to name a lump sum beforehand, the intention of the contract can be fulfilled by giving a schedule of rates for work and materials.

In the present case, we accept the Chief Architect's statement that lump sum tenders could not be made. It would have been well to adopt the alternative of schedule rates.

The difficulty about the price, however, need not have prevented written descriptions of the different items of work. Please see that these are given in all future instances. Explicit general instructions might be issued in this sense, to all your architects and engineers.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. FREDERICK HAYTER, *for A.G.*

Three Island Cove: W. J. Poupore & Co.

PUBLIC WORKS DEPT., March 30, 1911.

SIR,—With reference to the claim made by the W. J. Poupore Company for readjustment in the prices for work done by them during last season, in dredging at Three Island Cove, N.S., on representations made by them that the cost of this work was considerably in excess of estimates which have been paid, based on a verbal agreement with the department to do this work. I beg to transmit herewith reports of March the 2nd and 21st last, from Mr. Engineer U. Valiquet, who was asked to investigate the contentions made by the contractors.

Mr. Valiquet states that owing to the particular nature of the work, requiring a narrow channel in which it was difficult to work, and also the nature of the material, that he is of the opinion that a readjustment in the unit prices of this work should be made.

Taking into consideration these reports and also information which I have gathered from other sources, I beg to recommend that the work done by the W. J. Poupore Company, at that place, be paid for on the basis of cost, plus a percentage.

It will be noted from my letter to Mr. Valiquet of March 13 last, that he was asked to try and estimate the cost of this work.

In Mr. Valiquet's report of the 21st inst., there will be noted an itemized account of the cost of this work, with statements of repairs and towing, interest, insurance, and depreciation, making a total amount of $7,319.35, to which I would recommend adding percentage of profit of 20 per cent, making a total cost of the work of $8,783.22, upon which basis I would recommend that the work be paid. This would reduce to 11,752 cubic yards at 74¾c.=$8,784.62.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. A. R. DUFRESNE, *Asst. C. E.*

AUDIT OFFICE, OTTAWA, May 4, 1911.

SIR,—I beg to acknowledge receipt of your application No. 1107 for $5,845.82, in favour of W. J. Poupore Co., in settlement of account for dredging at Three Island Cove, July-October, 1910.

The account reads as follows:—

'Settlement according to recommendation of assistant chief engineer, 11,752 cu. yds. at 74¾c., $8,784.62; less previous payments, $2,938.80; balance, $5,845.82.

Payments have already been made on this work for 3,356 cu. yds. scowed away at 50c., and 6,304 cu. yds. cast over at 20c. per cu. yd. How is the amount 11,752 cu. yds. obtained?

An agreement was entered into between the department and the W. J. Poupore Co. to do dredging required at Three Island Cove, the quantity being limited to 8,000 cu. yds., at a price of 50c. per cu. yd. We have no precedent for paying a greater price than that agreed upon.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. FREDERICK HAYTER, *for A.G.*

OTTAWA, May 16, 1911.

Dear MR. HUNTER,—You will remember that when you asked me to allow our dredge *Prince Guy* to stop at Three Island Cove, C.B., to do some work there, which was not to exceed three weeks, it was on its way to Petit de Grat where we had a contract.

To oblige you, I agreed to have the dredge stop at Three Island Cove and instructed our agent, Mr. Monk, to do so. This was all that was said on the subject, and we thought the price we had in Bras d'Or lakes the year before would be sufficient, but when our agent, Mr. Monk, wired me to Chatham, N.B., when the dredge started work at Three Island Cove, that the conditions were such that he would go on to Petit de Grat, unless we had a signed contract with the government for the work at Three Island Cove.

I wired Mr. Monk to continue the work during Mr. Hunter's absence, and I would take the matter up with him on his return. Having promised Mr. Hunter to do the work, I felt I could not honourably stop the dredge until his return.

From that time to the present we have not been paid, although a settlement has been reached, and although the amount decided upon is not up to our expectations we agree to accept the amount, and end the matter.

As we are very much in need of the money, we will be very much obliged to you if you will hasten its payment.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. W. J. POUPORE, *Pres.*

PUBLIC WORKS, DEPT., OTTAWA, May 18, 1911.

SIR,—In further reference to your letter of the 4th instant, I inclose copy of letter which Mr. W. J. Poupore has written me in connection with Three Island Cove dredging work, application for payment of which is now before your office, and beg to say that what Mr. Poupore states in his letter is substantially a correct presentation of what happened in this connection.

We discussed at the time I requested him to go there, at the urgent solicitation of Mr. G. W. Kyte, M.P., who was pressing me to have the work done, his doing the dredging at 50 cents per yard, which was the price he was receiving for other work on the Bras d'Or Lakes, and he agreed that that price ought to be sufficient. He found, when he started work there, however, that he could not do it at that price, and I have no reason to doubt his statement that he would have stopped the work only in view of the arrangement which I had made with him to perform it, and which I had impressed upon him as most important, and his not being able to reach me at the time, as I was then with the Minister of Public Works on an inspection trip on the Great Lakes.

The matter has been thoroughly and carefully gone into by the Assistant Chief Engineer, and I am satisfied that the remuneration proposed to be fair is only fair, under the circumstances.

Yours truly,

The Auditor General. J. B. HUNTER, *D.M.*

AUDIT OFFICE, OTTAWA, June 2, 1911.

SIR,—Let me acknowledge receipt of your letter of May 18, 1911, concerning the claim of the W. J. Poupore Co. for an increased allowance over 50 cents a yard, for dredging at Three Island Cove.

Mr. Poupore's recollection is that no price was discussed or fixed when the work was ordered. Your own statement is that: 'We discussed at the time I requested him to go there, * * * * his doing the dredging at 50 cents per yard, which was the price he was receiving for other work on the Bras d'Or Lakes; and he agreed that that price ought to be sufficient. He found, when he started work there, however, that he could not do it at that price.'

Independently of the merits of the claim, we have no precedent for raising a contract-price. Payment can only be made after a special vote of parliament, describing the circumstances in full, and stating that the contract-rate is to be increased on account of insufficiency.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. FREDERICK HAYTER, *for A.G.*

Note by the Auditor General.—This claim for $5,845.82 has not yet been paid: November 27, 1911.

Tug 'Cliffside': Ottawa Forwarding Co.

(Following correspondence, pages V—374 to V—377 of Report of 1909-10).

PUBLIC WORKS DEPT., OTTAWA, Nov. 14, 1910.

SIR,—With reference to your letter of September 17 last, respecting the purchase of the tug *Cliffside*, I am directed to inclose herewith copy of a report received from Mr. Wm. Laurie, official steamboat inspector, containing further information,

as desired by you, regarding this boat. The owners, the Ottawa Forwarding Company, Limited, are pressing us for payment, and it is hoped that you may now see your way clear to passing the application.

I am, sir, your obedient servant,

The Auditor General. R. C. DESROCHERS, *Sec.*

STEAMBOAT INSPECTOR'S OFFICE, MONTREAL, Sept. 30, 1910.

SIR,—I beg to acknowledge the receipt of your letter of the 29th inst., asking my opinion on the points raised by the Auditor General concerning the tug *Cliffside*, built by the Ottawa Forwarding Company, during the winter of 1908 and 1909. Also a letter enclosed giving the points raised by him.

In reply I beg to say that during the winter that this boat was built, I had occasion to be in Ottawa very often, and saw all the material and workmanship during her construction, so that I can vouch for this part of the boat.

The engine was built by J. & R. Weir of this city in 1892, and was only about three years in use, so that it practically is a new engine.

The boiler also, was built by J. & R. Weir in 1895 under my supervision, late in November and put in the boat in 1896, but has been in use only 13 years.

As to the future life of the boiler, this depends altogether upon the care it gets, by want of proper care and rough usage it can be ruined in one season, but with good care it ought to be good for five or six years more, at least.

The life of a boiler on the Ottawa River is generally from 20 to 25 years with ordinary care.

In my opinion the boat is well worth $9,000.

I am, sir, your obedient servant,

The Secretary, Public Works Dept., Ottawa. WM. LAURIE, *Steamboat Inspector.*

AUDIT OFFICE, OTTAWA, Dec. 5, 1910.

SIR,—Let me acknowledge receipt of your letter of November 14, 1910, enclosing a report from Steamboat Inspector William Laurie, dated September 30, as asked for in our letter of September 19.

The previous correspondence about the tug *Cliffside* will be found printed at pages V—374 to V—377 of the Auditor General's Report for 1909-10. It ended with a request for a revised Order-in-Council, which has not yet reached this office.

Inspector Laurie says: 'The boiler was built by J. & R. Weir in 1895 under my supervision, late in November, and put in the boat in 1896, but has been in use only 13 years. As to the future life of the boiler, this depends altogether upon the care it gets; by want of proper care and rough usage, it can be ruined in one season, but with good care it ought to be good for five or six years more at least. The life of a boiler on the Ottawa River is generally from 20 to 25 years, with ordinary care.'

This information does not appear to have been given to the Minister of Public Works when he made his report to Council on June 17, 1910; on the contrary, Mr. Laurie's letter of May 4, 1910, would almost lead him to infer that the engine and boiler were practically new.

Mr. Laurie states that the boiler was built about the same time as the engine, while his last letter, September 30, 1910, states that the engine was built in 1902 but the boiler was built in 1896, or six years previously.

The correspondence does not show that, at any stage of the transaction prior to the issuing of the application, any officer of the department was aware of the age of the boiler.

It is possible that if these facts were made known to the minister at the time of purchase, he might have considered $9,000 too great a price to pay for the tug.

I think the matter should be brought to his attention and his sanction obtained before any further payment should be made. I think also that your officials should have exercised greater care in obtaining correct information before certifying to the value of the tug, as I presume it was largely on the strength of their certificate that the report of the Minister to Council was made.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT, OTTAWA, DEC. 19, 1910.

SIR,—With reference to your favour of the 5th instant, relating to the purchase of tug *Cliffside,* and quoting from letter of Inspector Laurie, concerning the age and life of the boiler in this vessel, to my mind, the important and essential thing in making a purchase of this kind is not particularly the age of what is being purchased but its present condition and future usefulness. These are the considerations which constitute its value. Mr. Goodwin, the assistant superintendent of dredging, informs me (copy of his memo. inclosed) that when making his report on this vessel he was informed by Mr. Laurie that the boiler was in good condition, would be allowed 125 lbs. working pressure and was good for at least six years' service; and this, and not its age, was what he considered in reporting upon the value of the boiler. It would appear therefore that the official who made this examination did exercise proper care and was possessed of all necessary information to enable him to come to a well-founded opinion as to the price; and that his report was one upon which the Minister could rely when recommending this purchase to council.

I fail to see the necessity of attaching such great importance to the fact that the probable life of the boiler would be only five or six years, was not stated in the report of the assistant superintendent of dredging upon which the Minister took action, although the former was possessed of this information and took it into consideration when determining the valuation.

I have shown the Minister this letter and apprised him of the correspondence in connection with the subject, and he is satisfied, in the light of what the further correspondence and investigation has developed, that he was quite justified in approving the report which was laid before him, and is prepared to stand by the recommendation which he made to council for the purchase of this tug for the sum of $9,000.

I beg to request, therefore, that the application for balance of $3,000 on this purchase be passed for payment.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER, *D.M.*

DREDGING BRANCH, OTTAWA, Dec. 12, 1910.

Memorandum for the Deputy Minister,—In reply to the Auditor's memorandum to you of the 5th inst., regarding the purchase of the tug *Cliffside,* I have the honour to state that before making my report recommending the purchase of this vessel, I had thorough examinations made as well as well as inquiries as to the condition of the vessel both by trial tests and examination in my presence by steamboat Inspector Laurie.

I may add, that when making this report I was fully informed by Mr. Laurie that the boiler was in good condition and good for at least six years service and he had no hesitation in still allowing 125 lbs. working pressure. In view of these facts I felt justified in recommending the purchase of the tug at the price stated.

E. B. GODWIN.

AUDIT OFFICE, OTTAWA, Dec. 29, 1910.

SIR,—Let me acknowledge receipt of your letter of December 19, assuming full responsibility for the purchase of the tug *Cliffside,* after recent information has been added to the previous files.

The unpaid balance of $3,000 will therefore be released; as the duty of the Audit Office lies in the perfection and application of accounting-systems, rather than in weighing the essential merits of each separate item coming under them.

In future transactions of this kind, please observe our suggestion of September 19 (shown at page V—377 of the Report for 1909-10), and have the ages of the different parts recorded at the first stage of the purchase, so that responsibility can be shared by all the officers who are subsequently called upon to approve.

I am, sir, your obedient servant,

The Deputy Minister. J. FRASER, *A.G.*

Temiskaming Dam: Kirby & Stewart.

PUBLIC WORKS DEPT., OTTAWA, December 13, 1910.

SIR,—I have the honour to state in connection with the Temiskaming dam contract that:—

(1) An Order in Council January 18, 1909, accepted the tender of Kirby & Stewart for a bulk sum of $76,000 to construct a wooden cribwork dam.

(2) An Order in Council March 13, 1909, annulled the former and authorized a concrete structure at the unit price provided for such an alternative structure in the original tender. No specification existed, however, for such an alternative structure.

(3) When I took charge therefore, a specification for excavation had to be written defining the common, rock and boulder excavation mentioned in the tender. A specification for concrete had also to be written based on the item in the tender for 'concrete 1, 3 and 5 in foundation.'

(4) The new specifications were attached to the old and by clause 16, the old ones were to apply if they did not conflict with the new, which were considered as amending and amplifying them ' on account of the new location and the change from wood to concrete construction and from a bulk sum to a unit price contract.'

(5) The contractors began work in June, 1909, but only signed the contract on July 22, 1909.

(6) It was after the second Order in Council, or May 18, that the present location for Temiskaming dam was completed, and the contractors visited the site with their manager before May 1. Their plant was on the work about the end of May. The general and detailed plans were completed in June.

It will be seen from the above that a very considerable change in plans was adopted after the second Order in Council. The excavation now done amounts to 50,000 c. yds., with 10,000 c. yds. more to do and concrete now built is 7,000 c. yds., with 6,000 c. yds. more to do.

In connection with these changes the original specifications contain clauses which should be carefully read.

The original wooden cribwork dam proposed was to cross the river in still water above the island. The bottom portion would have been floated out and sunk to place without expenditure for unwatering. The wooden superstructure upon this could have been placed under cover of a protection pier to baffle the current. Nothing is said in the original specifications that would lead to the idea of laying dry the river bed by cofferdams and steam pumps. A bulk sum price however of $4,000 appears in the tender, 'Item 25 unwatering.' In adopting the concrete design under this tender, the unit price $4,000, bid for unwatering remained like the other prices unchanged. The work, however, contemplated under 'Item 5 cofferdams' of the new specifications is very much more serious, as a perusal will show.

The Ontario side of the dam is practically completed. This part suffered from the extreme high water May and June, 1909, which delayed the work and interrupted the programme, it may be said.

The Quebec channnel cofferdam was begun October, 1910, but Lake Temiskaming rose 6½ feet this fall. Although the part of cofferdam built has withstood this great rise, the difficulty of completing the dam has increased beyond expectation.

Notwithstanding the rise, an attempt was made to build the island abutment with a secondary cofferdam. This, however, finally burst in and the abutment is now flooded.

The present condition is that the contractors have finished their work in the Ontario channel, but their attempt to work in the Quebec channel has failed after considerable expenditure owing to an exceptional autumn rise of water.

This unfortunate chain of events leaves the work in a critical condition. The water is high and the winter season is beginning. The cofferdam extending half way across the principal channel will obstruct the spring flow and perhaps cause floods at Liskeard, Haileybury and the north end of the lake generally. The contractors' funds it is said are becoming exhausted.

The amount bid for unwatering, $4,000, has been expended in cofferdams and pumping in the Ontario channel. Re-letting would mean the loss of the winter, and high water will prevent working till August, 1911, and probably $15,000 to $20,000 would be asked for unwatering the Quebec channel, and the excavation price would also likely be raised.

It seems to me that the department must eventually pay more money for the unwatering and excavation in the Quebec channel than is contemplated in the present contract. The cofferdam so far built will, if left till next spring, be a total loss and a new one will hardly be in place before August, 1911.

With the Ontario channel open as it now is, the whole Quebec channel might be closed by cofferdam and sufficient outlet given to the lake through the Ontario side.

	Sq. ft.
Area Quebec channel half blocked, say	2,700
Area Ontario channel raised to elevation 588 and dredge cut (1,500-1,100)	2,500

That is practically the area of half Quebec channel, which passed the flow before Ontario channel was opened and sufficed to lower the lake about one-half foot.

I therefore recommend that work be continued this winter by housing it in as already arranged for by Order in Council, and that the department assume the risk and pay for the cofferdam in the Quebec channel.

To insure the rapid excavation of the 10,000 c. yds. in the Quebec channel, the contractors' steam shovel should be put into the work. Considering the small amount of work and its scattered nature, I recommend that any cost above the contract prices be made good to the contractors.

The probable expenditure would be as follows:—

Cofferdam Quebec channel—

Upper cofferdam cribwork filled with stone, 4,000 c. yds. at $2.50	$10,000
Lower cofferdam cribwork filled with stone, 500 c. yds. at $2.50	1,250
Pumping, 100 days at $25	2,500
Removal upper and lower cribs, 4,500 c. yds. at $1.50	6,750
	$20,500

The original specifications provided for flatted timber in cribs at a price of 15c. per lineal foot, and also for stone filling in crib at 75c. per cubic yard.

At these rates the cribwork in the Quebec channel would cost about as follows:—

Cofferdam Quebec channel—

Crib timber sides and cross-ties, upper and lower dams, 40,000 lin. ft. at 15c	$ 6,000
Crib filling, 4,500 c. yds. at 75c	3,375
Pine plank sheeting, 25,000 ft. B.M., at 4½c	1,063
Pumping, 100 days at $25 (not in tender)	2,500
Removal upper and lower cofferdams, 4,500 c. yds. at $1.50 (not in tender)	6,750
	$19,688

This latter amounts to practically the same cost and it seems quite reasonable to order this cribwork at contract rates.

The benefits that will be received by the public for this expenditure of $20,000 are as follows:—

1. This arrangement will make it possible to do the work rapidly during the winter low water, and the sooner any unforeseen difficulties connected with unwatering are seen the better. If no difficulties occur, the storage reservoir will be obtained at least a year earlier than otherwise. A cofferdam always presents a costly risk, and the sooner it is built, used and done away with, the better for all parties concerned.

2. An engineering advantage is that the concrete foundation platform can thus be made continuously without the joint that two cofferdams made at different seasons would require. This also applies to the important cut-off wall beneath the platform.

3. As previously stated, if the present contractors default, and a new contract is advertised, the new bid for unwatering will be as much as this recommendation proposes, because the work must be done and paid for in the same manner. In view of the very great change made in the work I, therefore, recommend that the department consider this proposition to aid the contractors.

I remain, sir, your obedient servant,

Asst Dep. Minister of Pub. Works. C. R. COUTLEE, *Engineer in Charge.*

Order in Council, January 24, 1911.

Public Works,—On a memo. dated January 4, 1911, from the Minister of Public Works, submitting with reference to the contract of Messrs. Kirby & Stewart for the work of constructing a dam on the Ottawa river at the foot of Lake Temiskaming, that it was decided to authorize a change from a wooden to a concrete structure, to change the site of the dam and alter considerably the line of the original plans, involving a large amount of work not originally contemplated.

That the tenders received, based on the amended quantities and unit prices submitted, are now revised as follows:—

1. Kirby & Stewart, approximately.. .. ..$	176,840 00
2. E. J. Rainboth, approximately..	300,850 00
3. E. & D. E. Conroy, approximately..	301,140 00
4. J. Lumsden, approximately..	352,279 00

Showing that Messrs. Kirby & Stewart are still considerably lower in price than the other tenderers.

That the engineer reports that the contractors have so far executed their work in a first-class manner and have shown good-will to meet the changed conditions, though obliged to secure more expensive plant to carry on the altered work properly.

That the engineer in charge reports also that the amount of $4,000 bid by the contractors for unwatering has been all expended in the Ontario channel, and the most extensive and difficult part of the cofferdamming and unwatering, estimated to cost about $20,500 yet remains to be performed to complete the dam across the Quebec channel.

That owing to an exceptional autumn rise of the water the difficulties met with by the contractors have been considerably increased, and the work has reached such a critical stage that it is considered necessary and in the public interest to co-operate with the contractors in order to push the work to completion and prevent all possible delays and thus derive the benefits of the reserve water at least one season earlier.

That the contractors claim that though they agreed to execute the work in accordance with the amended plans, substituting concrete for wood, the change of site, the change in the section of the dam, the altered conditions in the foundations, have been so much greater than contemplated and expected, that they are entitled to consideration on account of the increased cost due to these radical changes and alterations from the original plans which formed the basis of their original tender.

The Minister in view of the foregoing and after careful consideration of all the circumstances affecting the contract, is of opinion that the contractors have a just claim and are entitled to consideration on account of the greater amount of cofferdamming and unwatering required, involving a larger expenditure, and recommends that authority be given to pay to the contractors over and above the contract prices the actual cost of cofferdamming and unwatering necessary to complete the dam across the Quebec channel, including the removal of said cofferdamming, plus the usual 15 per cent for incidentals, use of tools, office expenses, &c., upon the production of certified vouchers supported by a sworn declaration.

The Minister also recommends, in order to attain the object in view, that the Order in Council of December 22, authorizing an extra expenditure of $4,000 to $5,000 for housing and heating the first section of the dam across the Quebec channel in order to lay concrete without interruption during the winter, be amended, and that authority be given to enter into an agreement with Messrs. Kirby & Stewart to arrange to continue concrete work during the winter, for the whole length of the dam across the Quebec channel, at a cost of $8,000 to $10,000, on the

terms already approved for the section above mentioned, viz.: actual cost of labour and materials necessary for the said housing and heating, plus 15 per cent for incidentals, use of tools, office expenses, &c., upon the production of certified vouchers supported by a sworn declaration.

The committee submit the same for approval.

(Sgd.) F. K. BENNETS, *Asst. C.P.C.*

AUDIT OFFICE, OTTAWA, March 2, 1911.

SIR,—Let me acknowledge receipt of your application No. 922 for $7,977.99 in favour of Kirby & Stewart, for extra work at cofferdamming, unwatering, &c., on the Temiskaming storage dam.

The preamble to the Order in Council of January 24, 1911, is as follows: 'It was decided to authorize a change from a wooden to a concrete structure, to change the site of the dam, and alter considerably the lines of the original plans, making a large amount of work not originally contemplated.'

The change from a wooden to a concrete structure was provided for in the amended specification, which is attached to the contract of July 22, 1909, and therefore cannot now be made the subject of aclaim for extras.

Please separate the other items in the preamble, showing those which were included in the same amended specification, and those which were specified at a later date. The latter will need to be supported by copies of the written orders.

We would like to have a detailed plan of the work, giving the structure as required by the contract of July 22, 1909, and the items of changes made by subsequent specifications.

The written orders for alterations and additions will probably each carry a definite extension of the time-limit. The original date will hold, except as varied in this manner. Unless the contrart time-limit of July 20, 1910, was thus explicitly prolonged over the winter of 1910-11, it will shut out all such claims for winter-acceleration as those on which the present application is based.

The same time-limit would have operated also against the recognition of the Order in Council of December 22, 1910.

Please send calculations for the two estimated totals of cost as made up on schedule-items, namely, $108,050, and $176,840.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. FREDERICK HAYTER, *for A.G.*

PUBLIC WORKS DEPT., OTTAWA, March 22, 1911.

SIR,—Your letter of the 3rd instant, addressed to the Deputy Minister, regarding application No. 922, for $7,977.99, in favour of Kirby & Stewart, for cofferdamming and unwatering on the Temiskaming storage dam contract, has been referred to me, and I beg to give the following information, inclosing copies of plans and papers as requested by you.

1st. Referring to the 3rd paragraph of your letter, which reads as follows:—

'The change from a wooden to a concrete structure was provided for in the amended specification, which is attached to the contract of July 22, 1909, and therefore cannot now be made the subject of a claim for extras.'

In this connection I attach herewith copy of the report of the Engineer in Charge (marked A) which gives full information on the subject, and which formed the basis of the Order in Council passed January 24, 1911.

The decision to come to the relief of the contractors was not taken on account of the change from wood to concrete by itself, but on account of the radical changes which were made in the location of the dam and the unusual and unforeseen difficulties subsequently encountered in cofferdamming, unwatering and foundation work. Though the contract as signed, included the amended plans and specifications, while the work progressed, conditions were found such as to make it necessary for the department to co-operate with the contractors in the public interest, and to change the contract in so far as the item for unwatering was concerned, the original unit prices having perforce been retained, among them $4,000 for unwatering.

By perusing the report of the Engineer in Charge, dated December 13, 1910, you will see that this amount was entirely inadequate, and the work being in a critical stage, the minister had to consider the whole question as a matter to be dealt with in equity.

The usual contract forms do not provide the necessary elasticity required to adjust difficulties met with in difficult hydraulic works, with a fair degree of justice and equity to all interests.

The only recourse for the minister in such a case as the one under consideration, was to ask authority to deal with the matter as provided for by Order in Council, which amounted practically to a change in the contract, the case being fully explained, I think, in the different paragraphs of the Recommendation to Council. My impression is that it has always been understood that contracts could be amended by Order in Council.

In my opinion, hydraulic works of such a difficult character as the Temiskaming dam, cannot be successfully carried out without deviating more or less from the strict terms of the specifications and contracts.

When the material forming the bed of a river upon which it is desired to erect works, is hidden under swift and deep waters, it is practically impossible to get reliable data as to its character. Specifications have to be prepared and based upon assumed conditions in part—which conditions can be perfectly known and understood only when the work is in progress— and certain clauses which seem to be equitable may turn out to be very unfair to the contractors, or their application to the extent of their full meaning against the best interests of the department.

I may say that some time ago I visited the site of the work in order to ascertain personally the existing conditions, which were found as represented by the Engineer in Charge and contractors.

After several weeks of efforts, the contractors, aided by the skill of some of the best practical men in this class of work, have not been able yet to lay the cofferdam dry. This cofferdam had to be built in very rapid water, on top of a layer of large drift boulders underlaid by sand, which forms the bed of the river at that place, this being certainly the worst conditions that could be met with. The cost of building and sinking the cribs for the cofferdam, and of pumping, so far, amounts already to about $18,000, and no doubt the total cost will be materially higher than the estimate of the engineer on account of the great difficulty in getting the cofferdam watertight.

2nd. In the fourth paragraph of your letter you ask:

, 'Please separate the other items in the preamble, showing those which were included in the same amended specification, and those which were specified at a later date. The latter will need to be supported by copies of the written orders.'

I am inclosing copy of a letter from the Engineer in Charge (marked B) showing that after the contract was signed it was decided to add an apron 25 feet wide along the upstream face of the dam which was not shown on amended plans. This requires a larger area to be inclosed by the cofferdam and consequently more pumping.

The nature of the material underlying the top boulders, required a cut-off wall which was left of indefinite depth on the amended plan, the impression being, before the work commenced, that it might not be necessary to go any deeper in the boulder material than about 5 to 10 feet. In excavating, it was found necessary, on the Ontario side, to build this cut-off 10 feet deep below the sill of sluiceways, as a measure of safety, the material being different from what was expected. On the Quebec side, when the trench for the wall is excavated, I am afraid that the engineer will find it necessary to go even deeper than 10 feet to insure safety, as softer spots may be encountered.

3rd. 'We would like to have a detailed plan of the work, giving the structure as required by the contract of July 22, 1909, and the items of changes made by subsequent specifications.'

The original plans for the wooden dam, and the amended plans for the concrete dam are herewith inclosed. No other specifications than those attached to contract were made.

I might point out here that when the contractors were advised of the change from wood to concrete, no plans were then available showing the location, details and character of the work. These were completed only some time later, after more information as to the site had been obtained.

4th. The written orders for alterations and additions will probably each carry a definite extension of the time-limit. The original date will hold, except as varied in this manner. Unless the contract time-limit of July 20, 1910, was thus explicitly prolonged over the winter of 1910-11, it will shut out all such claims for winter-acceleration as those on which the present application is based.

Annexed herewith are copies of letters showing that the time of completion has been extended up to June 30, 1911. (*See* sheets marked C.)

5th. 'Please send calculations for the two estimated totals of cost as made up on schedule-items, namely, $108,050, and $176,840.'

For these kindly refer to papers marked D herewith annexed.

I also inclose for your information copy of correspondence relating to housing in of concrete for winter work (E).

I hope you will be able to consider the application favourably. Any other information which you may desire will be gladly given.

I am, sir, your obedient servant,

The Auditor General. A. ST. LAURENT, *Asst. D.M.*

AUDIT OFFICE, OTTAWA, April 1, 1911.

SIR,—Let me acknowledge receipt of your application No. 922 for $7,977.99 in favour of Kirby & Stewart, for cofferdams, unwatering, &c., at the Timiskaming Storage Dam in January, 1911.

History of Work.

The contract for a concrete dam (instead of cribwork) was signed by Messrs. Kirby & Stewart in July, 1909, though work had then been going on for about two months.

The schedule of prices for the concrete dam was taken from the tender for the cribwork dam, including the item of $4,000 for all of the unwatering. The contractors objected that $4,000 was insufficient, but they signed the contract notwithstanding. They also objected to the rate for excavation.

The whole work, as carried through up to the present time, was specified and planned before the contract was signed, there have been no subsequent changes of importance.

Unwatering the Complete Work.

The unwatering necessary to carry out the amended specification and plans, may be divided into three sections:—

(*a*) A cofferdam across the whole river, some distance north of the permanent sluiceways at the island. This cofferdam was to enable the river bed to be excavated down to 570.

(*b*) Cofferdams above and below the sluiceways in the Ontario channel.

(*c*) Cofferdams above and below the sluiceways in the Quebec channel.

Unwatering as Actually Performed.

(*a*) The northern cofferdam was not built. The contractors were relieved of the necessity of lowering the river bed any further up stream than a line 250 feet north of the platform in the Ontario channel. The river bed excavation up stream from the 250 ft. line was assumed by the Department of Public Works, and this part of the work was done, partly by a gang of divers and blasters paid by the department, and partly by the departmental dredge *Queen*, brought down from Haileybury. This was a double advantage to the contractors, in that it not only obviated the construction of the cofferdams, but also relieved them of excavation at a rate which they claim is too low. An advantage of this kind should always be evaluated, and charged to the contractors.

(*b*) Engineer Coutlee estimates that the two cofferdams in the Ontario channel cost about $2,000 each, or $4,000 with (say) $2,000 for pumping; this estimate is not disputed by the audit office. The unwatering of the Ontario channel alone will thus use up the $4,000 of the original tender.

(*c*) There still remains the unwatering of the Quebec channel, now in progress, and the Order in Council of January 24, 1911, proposes that the government should intervene to relieve the contractors, namely, 'That authority be given to pay the contractors, over and above the contract prices, the actual cost of cofferdamming and unwatering necessary to complete the dam across the Quebec channel, plus the usual 15 per cent for incidentals.'

No Precedent for Increased Payment.

We have no record in the audit office, of any previous case of this kind, where an Order in Council amended a contract, in the direction of giving increased remuneration to a contractor, over and above the amount of his tender.

If the contractors are to be relieved by payment additional to their tender, the only way now apparent is to place a sum for them in the supplementary estimates for 1911-12, with a full description of the circumstances.

Total Cost of Unwatering Quebec Channel.

The items of cost are approximately these:—

1910: to December 31, say.. .. ..$	14,000	
1911: January 1 to 24, say..	6,000	
	——$	20,000
1911: January 25 to 31, say..	2,000	
1911: February $8,000, March $8,000..	16,000	18,000

Or about $40,000 in all.

If the Order in Council is to operate only after its own date the $20,000 spent before January 24 would not be included, and the cofferdamming and unwatering necessary to complete the dam across the Quebec channel' would cost $18,000 or $20,000.

I am, sir, your obedient servant,

The Assistant Deputy Minister, *P.W.D.* FREDERICK HAYTER, *for A.G.*

Order in Council, August 11, 1911.

Public Works.—On a memorandum dated August 5, 1911, from the Minister of Public Works submitting that, under authority of an Order in Council dated January 18, 1909, a contract was awarded to Messrs. Kirby & Stewart, for the construction of a wooden dam on the Ottawa river, at the foot of Lake Temiskaming.

The minister states that, on March 13, 1909, a subsequent Order in Council was passed authorizing the change from a wooden to a concrete structure, which necessitated considerable alterations in the plans and location of the work, and on account of these changes, and unexpected difficulties met with in the cofferdamming and unwatering necessary to build the concrete dam, on the Quebec side of the river, authority was obtained from council, on January 24, 1911, to pay the contractors, over and above their contract prices, the actual cost of cofferdamming and unwatering required, plus the usual 15 per cent for tools, profit, office expenses, contingencies.

That the attempt to build the concrete dam before the spring high water of 1911 has failed. The cofferdam was only laid dry after several months of effort, to make it water-tight, on account of the unfavourable nature of the bottom. Work for only a few days was possible in the pit before the cofferdam was overtopped and part of it carried away.

That the small amount of excavation done in the bed of the river for the foundations of the concrete dam, before the cofferdam failed, showed the boulder material to be underlaid by water bearing sand, and the Engineer in Charge and the Assistant Deputy Minister of Public Works are therefore, of the opinion that close sheet piling extending below the concrete cut-off wall of the dam will be advisable as an additional factor of safety. They advise, in view of the difficulty experienced this season in passing the four million saw-logs that annually descend Temiskaming Lake, that the design of the dam can be changed so as to provide larger openings giving a thicker and longer apron for the Quebec sluiceways.

That Messrs. Kirby & Stewart have represented that it would be exceedingly difficult to continue the work under the present circumstances, owing to conditions entirely beyond their control. The close sheet piling proposed in the foundations, they state, would largely increase their risks, by lengthening the period of difficult work to be done inside the cofferdam. The necessity for this sheet piling was not anticipated, and the work is not, of course, provided for in the contract.

That the Engineer in Charge and the Assistant Deputy Minister of the Department of Public Works report that, under the circumstances, it would be advisable, and in the public interest, not to proceed further with the construction of the dam as contracter for, and that the contract should be terminated at the presents tage; the security cheque of eight thousand dollars ($8,000) deposited in connection with same to be returned to the contractors, and work already performed, materials delivered and plant supplied, to be paid for. The reconstruction of the cofferdam, erection of the concrete dam with modified openings for the passage of logs and sheet piling to be proceeded with by day's labour.

The minister, concurring in the views of his officers above mentioned, recommends that the contract with Messrs. Kirby & Stewart, for the construction of a dam on the Ottawa river, at the foot of Lake Temiskaming, be cancelled and that the security cheque of $8,000, deposited in connection with same, be released, also that the work already executed which may be considered as absolutely necessary be paid for at its actual and reasonable cost, payment for cofferdam and unwatering to be made as per terms fixed by Order in Council dated January 24, 1911, the completion of the dam including such close sheet piling in the foundation, and other alterations that may be found necessary to be proceeded with by day's labour, and further that the plant and materials on the ground be bought at a fair valuation based on actual cost supported by vouchers certified under sworn declarations.

The committee submit the same for approval.

R. BOUDREAU, *C.P.C.*

OTTAWA, October 4, 1911.

DEAR SIR:—*Re* Unwatering Temiskaming Dam. We have seen the Auditor General in regard to payment of above account, and he says that as this item as passed by the House was never discussed, he would like to have, before making payment, the opinion of the Justice Department as to whether sufficient details are given in the vote.

The Deputy Minister of Public Works. Yours truly, KIRBY & STEWART.

PUBLIC WORKS DEPT., OTTAWA, Oct. 5, 1911.

SIR,—I inclose copy of letter received from Messrs. Kirby & Stewart, regarding which I would like to have an intimation from you that you consider it necessary that such an opinion be obtained from the Justice Department before payment is made. As you are aware, five-twelfths of the amount included in the Supplementary Estimates for the current year, namely, $83,000, has been voted, and the wording in connection with the vote is quite full and self-explanatory.

For convenience of reference I beg to quote same: 'Construction of water storage dams and regulation works on the Upper Ottawa River and tributaries—To pay contractors Kirby and Stewart additional amount for cofferdams and unwatering in connection with the construction of the Timiskaming dam on the Ottawa river, $83,000.'

Yours very truly,

The Auditor General. J. B. HUNTER, *D.M.*

1—27½V

AUDIT OFFICE, OTTAWA, October 7, 1911.

SIR,—I have to acknowledge receipt of your letter of 5th instant, asking if I consider it necessary that an opinion be obtained from the Justice Department in reference to the sufficiency of the wording in the vote in the supplementary estimates, 'To pay Contractors Kirby & Stewart, &c,' *re* Témiskaming dam.

In reply I beg to say that I do not consider it necessary so far as I am concerned, as I do not think it affects the case; my objection to the payment is based on the terms of the contract, which require the contractors to do the work at the price contracted for.

An Order in Council was passed on January 24, 1911, to pay the contractors, over and above their contract prices, the actual cost of cofferdamming and unwatering required, plus the usual 15 per cent for tools, profit, office expenses and contingencies. This Order in Council is based on the statement that a change had been made from a wooden to a concrete structure, which necessitated considerable alterations in the plans and location of the work, and unexpected difficulties met with in the cofferdamming and unwatering necessary to build the concrete dam on the Quebec side of the river.

By reference to contract and Orders in Council, I find as follows:—

Order in Council of January 18, 1909, awarded a contract for the construction of a wooden dam, but the contract was never executed.

Order in Council of March 13, 1909, authorized a change from a wooden to a concrete structure.

Subsequently, on July 22, 1909, a contract was executed for the construction of a concrete dam, &c. The specification and schedule of prices are attached to this contract.

The change from a wooden to a concrete structure and the alterations in the plans and location of the work, were made before the contract was entered into, therefore I cannot see how these changes can be made a basis for payment over and above the contract prices.

I am, therefore, of the opinion that neither the Order in Council of January 24, 1911, nor the item in the supplementary estimates, is sufficient to warrant me in passing a certificate for the payment of the additional amounts for cofferdamming and unwatering.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. J. FRASER, *A.G.*

Note by Auditor General,—The accounts of Messrs. Kirby & Stewart are under consideration by the Public Works Department, November 27, 1911.

AUDIT OFFICE, OTTAWA, May 15, 1911.

Re SLIDE AND BOOM DUES, ST. MAURICE DISTRICT.

SIR,—The dues accrued against the Laurentide Paper Co. during the season of 1909 amounted to $10,551.44.

On June 25, 1910, $6,841.82 was deposited by your collector from this company. The balance, $3,709.62, is yet unpaid.

The dues accrued against this company during the season of 1910 have been paid.

I am, sir, your obedient servant,

J. FRASER, *A.G.*

The Deputy Minister of Public Works.

PUBLIC WORKS DEPT., OTTAWA, May 19, 1911.

DEAR SIR,—Yours of the 15th instant received *re* Slide and Boom dues, St. Maurice District.

The balance referred to, viz., $3,709.62 remaining unpaid, is disputed by the Laurentide Paper Company, and settlement of the matter is only awaiting the return of the General Manager from Europe, when it will be taken up.

Yours truly,

J. B. HUNTER, *D.M., P.W.*

Auditor General

AUDIT OFFICE, OTTAWA, Aug. 30, 1910.

Re Payment by Richelieu and Ontario Nav. Co.

SIR,—On your revenue return No. 5, there is entered a deposit of $2,000 by the Richelieu and Ontario Nav. Co., endorsed "toward improvement to wharf."

Please let me know the wharf in question, when the improvement was made, the cost, and any other information pertinent thereto.

I am, sir, your obedient servant,

J. FRASER, *A.G.*

The Deputy Minister, Public Works.

DEPT. OF PUBLIC WORKS, OTTAWA, Sept. 10, 1910.

SIR,—With reference to your letter of the 30th ult., asking for information in regard to a payment by the Richelieu and Ontario Navigation Co. of $2,000 for improvements to wharf, which appears in our Revenue Return No. 5, I am directed to state that this is the amount of contribution agreed to be paid by the Richelieu and Ontario Co. towards the cost of an extension to their wharf at Sorel, estimated at $8,500, rendered necessary by the construction of an addition to the Government deep water wharf there.

For your information, I enclose, herewith, copies of reports of our engineers in the matter, with a blue print showing the addition to the Government work and extension of the Richelieu and Ontario Navigation Co.'s wharf.

I am, sir, your obedient servant,

R. C. DESROCHERS, *Secretary.*

The Auditor General.

DEPT. OF PUBLIC WORKS, OTTAWA, Nov. 3, 1909.

SIR,—In a letter herewith enclosed, Mr. C. J. Smith, General Manager of the Richelieu and Ontario Navigation Company, refers to the possibility of the company's property being injured by the construction to an addition to our wharf at Sorel. The matter was referred to Mr. J. L. Michaud, district engineer, whose report I have the houour to transmit herewith.

Mr. Michaud states that a crib at the south end of our wharf and adjacent to the Richelieu and Ontario Navigation Company's wharf would prevent the company from using part of its wharf for large boats, and would leave the Department open to a claim for damages from the company. He suggests that the best remedy would be to build an extension in front of the company's wharf, as shown on the accompanying plan. This would satisfy the company and protect the corner of our wharf from damage by ice shove.

He estimates the cost of such an extension at $8,500, of which amount the company is willing to pay $2,000.

In my opinion, the work is absolutely necessary for the protection of our own wharf, and I have the honour to recommend that authority be granted for its construction this fall by the present contractors, who have all the necessary plant on the site of the work.

I am, sir, your obedient servant,

(Sd.) EUGENE D. LAFLEUR, *Chief Engineer.*

The Deputy Minister, P.W.D.

AUDIT OFFICE, OTTAWA, May 19, 1911.

Re **Rents of Carrier Laine Property.**

SIR,—The Minister of Public Works stated in the House on May 15, that part of the Carrier Laine property was leased to the Canadian Shoe Machinery Company for 30 years at $4,000 per year for first ten years and $6,000 per year for twenty years.

The final payment for the property was made August 7, 1909, but it is not stated when the lease was made to the Canadian Shoe Machinery Company. Nothing seems to have yet come to account from this company for rent.

The Minister also stated that the Barras Wharf was leased to Quebec and Levis Ferry Company at $500 per year.

During the year 1909–10, $1,032.50 came to account for rent for this wharf, but nothing during 1910–11.

I am, sir, your obedient servant,

J. FRASER, *A.G.*

The Deputy Minister of Public Works.

PUBLIC WORKS DEPT., OTTAWA, June 28, 1911.

SIR,—I am requested to answer your letter of the 29th, ult., to the Deputy Minister, in regard to the rental payable for the property under lease to the Canadian General and Shoe Machinery Co.

The Company claims to have made certain repairs, for which, under the lease, they are to be credited for against the rental. As their claims cover nearly three years of diverse accounts, the matter has been referred to the Departmental Collector of Revenue, Mr. E. Smith, for report as to what amount they would be entitled to credit. As some of the items charged are contested, Mr. Smith states that, although he has been given the matter all the attention possible, he has been unable as yet to arrive at a final adjustment.

Clause No. 10 of the Lease governing this question of repairs reads as follows:

> "If repairs, deemed Lessor's repairs, are found necessary in order to put immovables and the plant in a good state and working order, the Lessee, upon written authority from the Minister of Public Works of Canada, shall make the said repairs itself, under the direction and supervision of the District Engineer of the Department of Public Works of Canada, residing at Quebec, the said Albert Roch Decary, or his successor in office, and the said Lessee is hereby authorized to appropriate to its reimbursement for the necessary expenses incurred by the making of the said repairs, an amount nor exceeding the rent hereinafter stipulated for the first four years of the present lease, $16,000.00."

As to the Barras Wharf, the Quebec and Levis Ferry Company were dispossessed on the 19th of September, 1910, as the Wharf was then taken over for reconstruction by the contractor.

The Collector of Revenue states that the Quebec and Levis Ferry Company paid the rental from 1st of May to 19th of September, 1910, on the 15th inst., viz., $194.52; the delay in the settlement of this amount being caused by some claim put up by the Company, which was not entertained.

I am, sir, your obedient servant,

A. St. LAURENT.
Assistant Deputy Minster.

The Auditor General.

Re **Wharfs and Piers.**

AUDIT OFFICE, OTTAWA, May 22, 1911.

SIR,—Referring to your remarks in the House on the 18th instant on the question of the transfer of wharfs to the Department of Marine and Fisheries and the collection of Tolls thereon, I take the liberty of submitting a memo. on the subject, which was prepared by my predecessor, Mr. McDougall, and while it may not, as a whole, meet your views on the subject it might assist you in adopting a policy which would be more satisfactory than the present.

I may say that from an Auditor's standpoint the present system is very unsatisfactory and entails an amount of labour and correspondence in trying to have the revenue collected that is altogether out of keeping with the meagre results obtained.

I am, sir, your obedient servant,

Hon. Wm. Pugsley, Minister of Public Works. J. FRASER, *A.G.*

MEMORANDUM *re* WHARFS AND PIERS.

The policy followed for some years in reference to wharfs and piers has been that the Government through the Department of Public Works erected a wharf or a pier to accommodate the merchants and shippers of different localities and the Department of Marine and Fisheries collected tolls thereon.

Considerable sums were spent by both Departments each year to repair the wharfs.

Of late years a great many wharfs have been constructed which have not been transferred to Department of Marine and Fisheries, and presumably those using them are not called on to pay any tolls.—See correspondence in Audit Report 1889–90, page P—178.

From quite a number of wharfs no revenue is received and the reason assigned is that they are out of repair. In some cases the wharfinger reports that the people will not pay tolls.

In view of the circumstances and the difficulty of determining the real merits of applications for wharfs and piers it is worthy of consideration that for the future it should be decided to grant only a percentage, say sixty per cent of the cost of construction of any wharf applied for, the municipalities or companies concerned contributing the balance.

An estimate should be made by an engineer of the Public Works Department of the cost of the structure, and the contribution of the Government paid in Progress estimates.

When built the wharf should become the property of the municipality on whom the duty will devolve of keeping it in repair; and with the power to levy and collect such tolls as may seem proper.

With reference to the wharfs now in use, and in good condition, they should be transferred to the several municipalities with the understanding that they assume the duty of keeping them in repair and have the right to collect tolls.

As to applications to restore wharfs out of repair enquiry should be made as to their necessity, and where found satisfactory the repairs might be made by the Government and the wharfs then handed over to the municipality.

If the foregoing suggestions were adopted wharfs would not be sought after unless really required and likely to prove of advantage, as a municipality would not likely contribute even 40% of the cost on construction if there was not a real necessity for the wharf.

The Government will be relieved of the expense and bother of repairing the wharfs and collecting the tolls.

On the other hand the municipality would not be the loser, for the tolls could be made to meet both interest and sinking fund on the outlay.

AUDIT OFFICE, OTTAWA, Oct. 28, 1910.

Re **Slides and Booms, Chenеaux Boom.**

SIR,—I have received a copy of an Order in Council dated 12th instant, reducing the rates on saw logs passing through the Chenеaux Boom from 3 cents to 2 cents for M. feet B.M., to take effect from April 1, 1908.

The Order states that the revenue fron the Ottawa Slides and Booms for the ten years ended March 31, 1907, shows a net surplus of $22,313.19.

I have to ask for a statement showing how this surpuls is reached.

I am, sir, your obedient servant,

J. FRASER, *A.G.*

The Deputy Minister of Public Works.

PUBLIC WORKS DEPARTMENT, OTTAWA, Nov. 3, 1910.

SIR,—I beg to acknowledge the receipt of your letter of the 28th ultimo, and in compliance with the request contained therein, to enclose a statement of revenue from the Ottawa Slide and Booms for the 10 years ending March 31, 1907.

I am, sir, your obedient servant,

The Auditor General. P. C. DESROCHERS, *Secretary.*

Expenditure for 10 years which includes allowance of $1,800.00 per annum, to The Upper Ottawa Improvement Co	413,824 00
Surplus for 10 years	22,313 19

AUDIT OFFICE, October 26, 1910.

SIR,—I have received an Order in Council dated 12th inst., reducing the rate on saw logs passing through the Cheneaux Boom from 3 cts,. to 2 cts. per M feet, B.M., to take effect from April 1, 1908.

The Order states that the revenue from the Ottawa Slides and Booms for the ten years ended March 31, 1907, shows a net surplus of $22,313.19, and as these works are maintained for the purpose of affording safe passage for the logs, etc., and not as a means of profit to the Government, the reduction is made.

I enclose a statement compiled from the Audit Reports, which shows that the total revenue during the 10 years ended March 31, 1907, was $432,803.90; and the direct expenditure $430,000.30, to which should be added one-half of the Departmental expenditure, making a total of $447,427.82. As the expenditure for 1906–7 is for only 9 months one fourth of the expenditure of 1896–97 should be added. The revenue for 1906–7 was as great as if the year covered full twelve months.

If these figures are correct the reduction would appear to have been made on wrong information, and in view of this perhaps the Treasury Board might alter its decision after further enquiry into the matter.

I am, sir, your obedient servant,

J. FRASER, *A.G.*

The Secretary of the Treasury Board.

FINANCE DEPARTMENT, OTTAWA, Oct. 28, 1910.

DEAR SIR,—I beg to acknowledge receipt of your letter of the 26th instant, respecting Slides and Booms—Cheneaux Boom.

Yours truly,

H. BOVILLE, *D.M.F.*

The Auditor General.

AUDIT OFFICE, OTTAWA, February 21, 1911.

SIR,—I wrote you October 26th last in reference to an Order in Council reducing the charge on saw logs passing through the Cheneaux Boom from 3 cents to 2 cents per M. feet, enclosing a statement showing that the revenue from Ottawa River Works was less than the expenditure during the ten years to March 31, 1907.

I have to enquire what action was taken by the Treasury Board in reference thereto.

I am, sir, your obedient servant,

The Secretary, Treasury Board. J. FRASER, *A.G.*

Re **Telegraph Revenue—Yukon.**

AUDIT OFFICE, OTTAWA, June 7, 1911.

SIR,—According to the returns from the Yukon, the revenue accrued in 1910-11 was $118,574.28, to which add $13.86, balance from previous year, making $118,588.14, which was deposited.

The actual direct deposits from the Yukon that came to account during the year amounted to $114,277.98, to which is to be added the amounts collected at sundry offices acct., C.P.R., $4,794.57, making in all $119,072.55; an excess over revenue accrued of $484.41.

This excess arises from the difference between the amounts collected at Government offices for C.P.R. and the amounts deducted by C.P.R. in their settlements, as per accompanying statement:—

Kamloops and Penticton—		
Amount collected for and accounted.....	$ 2,852 40	
Amount deducted by C.P.R.....	2,370 32	$ 482 08
North West Lines—		
Amount collected and accounted for.....	827 35	
Amount deducted by C.P.R.....	815 73	11 62
Nanaimo and Comox—		
Same amount collected and deducted.....		
		$493 70
Golden and Windermere—		
Amount collected and accounted for.. ..$	302 62	
Amount deducted by C.P.R.....	311 28	8 66
Alberni and Cape Beale—		
Nothing collected.....		
Amount deducted by C.P.R.....		0 83
		9 49

I am, sir, your obedient servant,

The Supt. of Govt. Telegraphs. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., OTTAWA, June 8, 1911.

SIR,—I beg to acknowledge the receipt of your favour of yesterday containing a statement of excess of revenue over traffic returns to the credit of the C.P. Telegraph transfer account. The Company's Audit Office is being communicated with to the end that these differences will be adjusted.

I am, sir, your obedient servant,

The Auditor General. D. H. KEELEY, *Gen. Supt.*

Re **Telegraph Revenue, Kamloops and Penticton.**

AUDIT OFFICE, OTTAWA, Nov. 8, 1910.

SIR,—The following amounts have been expended out of revenue on account of maintenance:—

May, 1910	$ 156 23	
June, 1910	319 20	
August, 1910	231 45	
		$ 706 88

The Statute directs that the gross revenue shall be deposited to credit of Receiver General, and the action of your officer in using his revenue for maintenance was objectionable, and I trust will not be repeated.

An Entry Warrant should be applied for crediting telegraph revenue and debiting expenditure the above amount.

I am, sir, your obedient servant,

The Deputy Minister of Public Works. J. FRASER, *A.G.*

PUBLIC WORKS DEPT., January 24, 1911.

SIR,—In reply to your letter of the 8th November last *re* Telegraph Revenue, Kamloops-Penticton System, I may say that all arrears of revenue have now been deposited to credit of Receiver General.

Mr. Stevens, the Superintendent at Summerland, has been instructed that for the future he must on no account use revenue for any other purpose.

I am, sir, your obedient servant,

The Auditor General. J. B. HUNTER.

Re **Public Works Revenue.**

AUDIT OFFICE, OTTAWA, December 28, 1910.

SIR,—Your collector sends in a monthly statement of rents collected amounting to two to three thousand dollars per month.

The last return and deposits appertaining thereto that has come to hand is that for August.

In consequence there must be a large amount of deposit receipts being held in your Department.

I have repeatedly called your attention to the delay in forwarding the deposit receipts. This is objectionable on account of the adjustment with the bank accounts; and not getting the returns promptly interferes with the work of this office. If we do not keep the work up during the year, we would be unable to prepare our statements for the annual report so as to have it ready for the opening of the House in November.

Your attention is requested.

I am, sir, your obedient servant,

J. FRASER, *A.G.*

The Deputy Minister of Public Works.

PUBLIC WORKS DEPT., OTTAWA, December 29, 1910.

SIR,—I am in receipt of your favour of the 28th instant, with reference to return of Public Works revenue.

I have made enquiries from the collector who informs me that he makes his return regularly every month to the Accountant.

I shall therefore take the matter up with Mr. Kingston immediately, and have arrangements made to facilitate the passage of deposit receipts through his branch.

Yours truly,

J. B. HUNTER, *D.M.*

Auditor General.

* Transferred to Calgary & Edmonton Ry. Special Account in 1911-12.

AUDIT OFFICE, OTTAWA, January 31, 1910.

Re Hydraulic Rent—Beauharnois Canal.

SIR,—The statement of leases in force and arrears due, furnished under date of March 7, 1907, contains the following entry, viz.: Lease 4292, Montreal Cotton Co., balance July 1, 1895, $4,900.

On March 11 last this company paid the sum of $2,832 on account of arrears. I should be glad to know if it was on account of lease 4292.

The statement of arrears due to March 31, 1909, and remaining unpaid August 1, 1909, does not contain the amount of arrears due by the Montreal Cotton Co. for lease 4292, on the Beauharnois canal.

Please let me have an explanation.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. RAILWAYS AND CANALS, OTTAWA, February 4, 1910.

SIR,—Referring to your communication of the 31st ultimo. in the matter of the arrears due by the Montreal Cotton Company on Lease No. 4292, on the Beauharnois canal, I may say that the sum of $2,832 was paid for arrears by the company on March 11, 1909, under Lease No. 4292, which was accepted under authority of an order in council, dated January 30, 1909, in full settlement, having regard to counter claims of the company, of all rental due under the said lease.

I enclose a copy of the order in council.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

2 GEORGE V., A. 1912

AUDIT OFFICE, OTTAWA, February 8, 1910.

SIR,—I have your letter of the 4th instant in which you state that the Montreal Cotton Company was allowed $2,500 on account of the rents due for the erection of a retaining wall which the company claimed should have been erected by the government and in which your chief engineer concurred.

Without questioning the propriety of the company being repaid for the work done, I do not consider that the department was justified in allowing the sum on the arrears due, which practically meant paying for it out of revenue. The Audit Act, section 35 provides that all revenues shall be deposited to the credit of the Receiver General.

If it was considered just to repay the company for the erection of the wall, it should have been provided for by an appropriation in the Supply Bill. If a like case should occur again, I trust you will secure an appropriation.

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

DEPT. RAILWAYS AND CANALS, OTTAWA, February 12, 1910.

SIR,—I have the honour to acknowledge the receipt of your letter of the 8th instant, relative to the allowance of $2,500 made to the Montreal Cotton Company, under authority of an order in council of January 30, 1909, for the construction of a certain retaining wall on the Beauharnois canal, as against the arrears of rental due under Lease No. 4292.

I am, sir, your obedient servant,

The Auditor General. L. K. JONES, *Secretary.*

AUDIT OFFICE, OTTAWA, June 8, 1911.

Re **Windsor Branch Railway.**

SIR,—The freight receipts on the Windsor Branch Railway—

During 1909-10 amounted to..	$56,888 47
During 1910-11 to..	39,422 69
	$17,465 78

How is this large decrease accounted for?

I am, sir, your obedient servant,

The Deputy Minister of Railways and Canals. J. FRASER, *A.G.*

MONCTON, N.B., June 28, 1911.

J. W. PUGSLEY, Esq.,
Assistant Secretary,
Dept. Railways and Canals,
Ottawa, Ont.

DEAR SIR,—I received your letter dated June 10, enclosing a copy of a letter from the Auditor General, relative to the freight recipts on the Windsor Branch Railway, which had fallen off. I got Mr. Shannon to look into this matter, and I enclose you herewith his letter, dated June 23, in which he states that the general manager of the Dominion Atlantic railway informs him that the decrease in the freight earnings is wholly due to the failure of the apple crop in 1910. In 1909-10, 682,515 barrels were shipped to Halifax for export, while in 1910-11 only 248,000 barrels were sent.

Yours truly,

D. POTTINGER.

AUDIT OFFICE, OTTAWA, October 5, 1910.

Re **Intercolonial Railway: Classification of Revenue.**

SIR,—I inclose statement showing your classification of the revenue and our classification as compiled from your monthly returns.

As your classification is in more detail I would publish it in Audit Report could you arrange it to correspond with the passenger and freight earnings, as shown by your monthly returns which are published in detail.

Please explain the deduction of $124,032.62 acct. rental.

Why is this not charged to expenditure? How is this item brought into your accounts?

I am, sir, your obedient servant,

The Comptroller, I.C. Railway. J FRASER, *A.G.*

INTERCOLONIAL RAILWAY, MONCTON, N.B., October 11, 1910.

DEAR SIR,—I have to acknowledge receipt of your communication of the 5th instant, inclosing statement showing our classification of revenue, and your classification as compiled from our monthly returns, and stating that as our classification is in more detail you would publish it in your report could I arrange it to correspond with the passenger and freight earnings as shown by our monthly returns, which are published in detail; also asking for explanation of the deduction of $124,032.62 account of rental, and asking why this was not charged to expenditure, and how this item is brought into our accounts.

The Department of Railways in 1906 adopted the United States Interstate Commerce Commission's classification for expenditures and revenues by railways, and have since that time had all Canadian railways prepare their annual statements for the railway statistics which are issued by the department, in conformity with such classification.

With regard to revenue, under the heading of General—Income Account, will be found the primary accounts, numbering 19. I inclose you herewith a copy of this classification as issued to the railway companies by the Comptroller of Railway Statistics, Ottawa.

From the revenue described in this classification is to be deducted or added (as the case may be) items of the following nature, viz.:—

Interest—Rental of joint tracks, &c., based on valuation.

Taxes—Hire of equipment.

As this railway pays neither interest or taxes, the only deduction to be made from earnings is the case of the rental charged by the Grand Trunk railway for joint track between Ste. Rosalie and Montreal, based on valuation. This amount is $140,000 per annum. Against this is the amount we charge the Halifax and South Western and the Quebec Central railways as rental for use of our tracks, buildings and terminal facilities, based on a valuation.

Under the old system the rent paid the Grand Trunk was a direct charge against operating expenses, whereas now instead of being charged against operating expenses it is a reduction in the amount of earnings, under the account called 'Income Account —Rental.'

There is also another account under the heading of income, which is 'Hire of Equipment.' To this account is charged monthly the gross accruals for the use of equipment of all classes belonging to another carrier or company, on a basis of per diem, mileage or rental; and this account is credited monthly with the gross accruals for the use of this railway's equipment, while on the lines of other service companies or individuals, on a basis of either per diem, mileage or rental. This account is balanced at the close of each fiscal year, or periodically, at the option of a carrier,

and the balance thereof carried as a debit or a credit (as the case may be) to Income Account as 'Hire of Equipment.'

When this was started some little confusion arose in the minds of officials of various roads, and cases were prepared and submitted to the Interstate Commerce Commission for their opinion as to how these cases should be treated. This commission has issued four bulletins giving decisions as to how certain cases were to be treated. Case No. 12 states: 'To what account should be charged a rent of property based on interest valuation?' The decision by the commission is: 'To an appropriate rent account under Income Account.'

Another case was: 'Should amounts paid to and received from other companies for use of joint facilities, when same are based on a proportion of interest on valuation, in addition to the expenses incurred in maintaining and operating such property, be included under the following accounts: Maintaining Joint Tracks, Yards and other Facilities, Maintaining Joint Equipment at Terminals, Operating Joint Yards and Terminals, Operating Joint Tracks and Facilities, and General Administration—Joint Tracks, Yards and Terminals?' The decision given by the commission is: 'That portion of the charge which bears interest on valuation should be handled through the proper rent account under Income Account.'

From these rulings and from the classification of operating revenues as laid down by the Railway Department, we have prepared our general balance sheet for the year ending March 31, 1910, and with these explanations I think you will be able to see your way to give the details in your report with, perhaps, an explanation as to why there was a deduction from the gross amount of earnings.

I have received from various railway companies in the United States their annual reports for the year ending June 30, 1910, and in every instance their balance sheet shows as a deduction from their earnings items similar to these mentioned herein.

Yours truly,

S. L. SHANNON,
Comptroller.

AUDIT OFFICE, OTTAWA, October 26, 1911.

Re **Halifax and South Western Railway.**

SIR,—According to a statement recently received, the Halifax and South Western Railway still owes $94,869.95 to the Intercolonial Railway for its share of sundry expenditures at Halifax and Richmond stations.

The correspondence in connection with this account was submitted to the Treasury Board, and it passed a minute dated April 25, 1910, recommending that the matter be placed in hands of the Department of Justice for collection.

Please let me know what has been done in reference thereo.

I am, sir, your obedient servant,

J. FRASER, *A.G.*

The Deputy Minsister of Railways and Canals.

*Superannuation Fund No. 1.

AUDIT OFFICE, OTTAWA, February 15, 1911.

Re London Library.

SIR,—You expend in the neighbourhood of $400 per annum for subscriptions to Canadian newspapers, magazines, directories, &c., for the London Library in connection with the High Commissioner's Office, London.

This expenditure is charged to Miscellaneous, London Library.

The ordinary expenditure for salaries and disbursements of the High Commissioner's office is charged to Civil Government.

This inconsistency was referred to in a letter from this office dated November 16, 1899, suggesting that the expenditure made through your department should be met by the High Commissioner out of his vote for contingencies. Mr. Pope, then Under Secretary, in his reply dated November 23, 1899, concurred in this suggestion and promised to communicate with the High Commissioner on the subject.

Whether the expenditure is made through your department or by the High Commissioner, it should be charged to Civil Government.

I would suggest your conferring with the Deputy Minister of Finance under whose department the expenditure of the High Commissioner's office is controlled.

I am, Sir,

Your obedient servant.

J. FRASER, A.G.

THE UNDER SECRETARY OF STATE

DEPT OF THE SECRETARY OF STATE, OTTAWA, March 9, 1911.

SIR,—I have your letter of the 15th ultimo respecting the expenditure by this department for the London Library, and will look into the matter as you suggest.

I have the honour to be,

Sir,

Your obedient servant.

THOMAS MULVEY, *Under Sec.*

THE AUDITOR GENERAL.

1909-10.	Secretary of State Department: Revenue.		1910-11.	Increase.	Decrease.

CONTRACT WITH MESSRS. ALLAN—CANADA AND FRANCE.

AUDITOR GENERAL'S OFFICE, OTTAWA, August 31, 1910.

SIR,—There is provision in the contract, with Messrs. H. & A. Allan, for the Canada and France steamship service that, in case the average speed maintained by the steamers performing this service on any round voyage, should exceed 10 knots,—which seemingly is the minimum speed to entitle the contractors to any subsidy,—the contractors will be entitled to $555.55 for each knot so exceeded.

It is further provided that in ascertaining the average speed it "shall be computed to the nearest quarter of a knot in favour of the contractors".

According to your application of the 29th instant and the vouchers sent me in support of the Company's claim for the quarter ended June 30, 1910, the Department has interpreted these provisions so as to give the contractors, for a fraction of a knot, a proportional share of the amount agreed upon for one knot. For instance, when the average speed was 10·56 knots, the contractors have been allowed three quarters of $555.55.

I do not think that the wording of the contract bears out this interpretation, unless the words "At the rate of" have been unintentionally omitted before $555.55 in line 11 of clause 4.

I am, sir, your obedient servant,

The deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, Ottawa, Sept. 1, 1910.

SIR,—I have your letter of August 31, and while it would appear, reading clause 4 by itself, that it was not the intention of paying the contractors a proportion of the $555.55, such was the intention as evidenced by clause 5*a*. And I must admit that the intention would have been clearer had the words, as you suggest, "at the rate of" not been omitted before the amount $555.55 on the eleventh line of clause 4.

When this contract is renewed I shall see that the intention is made clear.

I have the honour to be, sir, your obedient servant,

The Auditor General, Ottawa. F. C. T. O'HARA, *D.M.*

CHARLOTTETOWN AND MANCHESTER, ENGLAND.

AUDITOR GENERAL'S OFFICE, Ottawa, December 21, 1910.

SIR,—With reference to your application of the 19th inst. for a cheque of $7,500 in favour of the Manchester Liners, being subsidy for three trips of the Company's steamers from Charlottetown to Manchester last fall, I beg to call your attention to Article 2 of the contract providing that the ventilating fans must be operated continuously during the voyages. Have you received any certificate or other proof that this provision has been complied with?

Is the Company entitled to a further subsidy for the voyages of the three steamers which performed this service in connection with the subsidized service Montreal, Quebec and Manchester, that is are the calls at Charlottetown merely a diversion of the voyages from Montreal to Manchester, or is Charlottetown and Manchester an independent service?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.D.*

DEPT. OF TRADE AND COMMERCE, Ottawa, Dec. 22, 1910.

SIR,—I beg to acknowledge receipt of your letter of the 21st December with reference to subsidy claim of the Manchester Liners for services performed between Charlottetown and Manchester.

You call my attention to Article 2 of the contract providing that the ventilating fans must be operated continuously during the voyage, and ask whether we have received any certificate or other proof that this provision has been complied with.

I beg to state that the only refrigerator cargo carried was 60 boxes of apples on October 25 and 52 barrels of apples on the sailing of November 30. As no complaints have been received we did not enquire further into the ventilation.

This contract was given knowing that it would be a diversion of the Montreal service. It would not be possible to make arrangements for a separate service in view of the fact that only $2,500 a trip was available.

I have the honour to be, sir, your obedient servant,

The Auditor General, Ottawa. F. C. T. O'HARA, *D.M.*

ST. JOHN AND GLASGOW, WINTER SERVICE.

AUDITOR GENERAL'S OFFICE, Ottawa, April 21, 1911.

SIR,—With reference to your application of the 19th inst. for a cheque of $8,250 in favour of the Robert Reford Co., Limited, being amount of subsidy claimed for the winter ocean steamship service between St. John and Glasgow of the year 1910-11, I beg to point out that duly certified records of only eight round trips have been sent me. In addition to these round trips your application includes a claim for six single trips from Glasgow to St. John at $375 each, being half the subsidy provided in the contract for a round trip fully

performed. This claim, it appears, has been allowed on the strength of evidence submitted by the contractors that at the time appointed for sailing from St. John, in each case, no freight was obtainable.

Will you please point out to me the clause in the contract under which the Department may allow payment for single trips for this reason.

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.D.*

Dept. of Trade and Commerce, Ottawa, April 24, 1911.

Sir,—I beg to acknowledge the receipt of your letter of April 21 with reference to our application of the 19th instant for a cheque for $8,250 in favour of the Robert Reford Company, Limited, being amount of subsidy claimed for the winter ocean steamship service between St. John and Glasgow in the year 1910-11.

You ask me to point out the clause in the contract under which the Department may allow payment for single trips. While there is no specific provision under which the contractors are paid for single trips, yet in view of the fact that they did not make a round voyage a deduction is made for that portion of the voyage not performed. This is in accord with the contract, and it has been our custom to pay the contractor for only that portion of the service performed.

We have already had the matter under correspondence with Messrs. Robt. Reford & Co. and in a letter addressed to the undersigned, under date of April 8, the contractors state:—

"In reply to your question as to why five of the ten vessels did not complete the round voyage to Glasgow we have to say that this was simply owing to the fact that we could not get cargo required, though everything possible was done to secure same. As an example, on the 11th November we wrote Messrs. Donaldson Bros. in connection with the *Kestalia*, one of the boats that only made the westbound voyage as follows:—

"'We note that you could possibly use this boat. We hope you can do so, as we have nothing booked, and it is simply impossible to say what amount of freight she would make, homeward."

'And later when Messrs. Donalsdon Bros. were complaining about heavy losses, we wrote them in regard to the *Salacia* on Dec. 20 as follows:—

"'We regret we are not able to telegraph what may be her probable earnings homeward, but the traffic conditions are peculiar, and it is not possible to make any accurate estimate. There will be some general cargo if shippers keep their promises, but uncertainty of cattle is causing us a great deal of worry. We have none booked yet. While we admit that these conditions are unsatisfactory still we think that some service has got to be kept up, otherwise you will get into bad favour with the Trade."

'On December 29 in reply to Messrs. Donaldson regarding sailing dates, we cabled and wrote that the *Lakania* in February should be loaded at Baltimore homewards, as we saw no chance of giving the vessel a paying freight from St. John, and further in connection with two later steamers in February we wrote our idea would be to blank them homewards, as we could not get cargo, and we added in addition, that it would be impossible for us, as far as we saw at that date, to obtain full cargoes for *Saturnia*, *Athenia*, and *Cassandra* sailing only a week apart. This is a horrible condition of affairs and

we regret having to send you such a message, but present outlook is such that it is altogether doubtful what cargo will be available.'

'These extracts are fair samples of the unsatisfactory nature of the present winter's business from St. John to Glasgow, and to emphasize still further the serious difficulties and heavy loss that we are sailing under, we might say that

'*Athenia*	from St. John	Nov. 19	had 385,000	c. ft.	of empty space.
'*Cassandra*	"	Nov. 26	had 270,000	"	"
'*Athenia*	"	Mar. 4	had 200,000	"	"
'*Cassandra*	"	Mar. 11	had 137,000	"	"

'In regard to the *Lakania* sailing from St. John Dec. 31, going to Avonmouth, we have to say that Avonmouth was only a port of call and after discharging Avonmouth cargo she proceeded to Glasgow. The reason for this was that we could not get all Glasgow cargo and at the request of the C.P.R. we put her on for Avonmouth to assist them in some of their engagements. In that way we managed to fill this steamer.

'In support of our accounts for subsidy for westbound voyages, when a full voyage has not been made, we have to say that we have worked under great difficulties, and it was our wish and desire to give the regular service as contracted for. The proof of this is shown by our anxiety to give half the service, if we could not give the whole one, and Messrs. Donaldsons would have given us the additional tonnage as required if we could have seen the slightest chance of filling the space from St. John to Glasgow. The port of St. John and the merchants of Canada have been the gainers by having a regular westbound connection for their imports, and Canada has been the gainer by the large number of immigrants that the passenger steamers the *Saturnia*, *Athenian* and *Cassandra* have carried, the total westbound of steerage and cabin amounting to 2,648 passengers, with the *Saturnia* just reported from Cape Race with additional 1,030 steerage and 250 cabin passengers.

'Under these circumstances we trust that you will recognize the justness of our account, and pass same for payment.'

The matter was subsequently laid before the Minister and under the circumstances the said claim was put forward allowing them for the half-voyages.

I have the honour to be, sir, your obedient servant,

F. C. T. O'HARA, *D.M.*

AUDIT OFFICE, Ottawa, December 15, 1910.

Re Inspection of Staples.

SIR,—According to your report the following staples were inspected during 1909-10:—

Hay at Toronto, fees	$ 57 27
Hay at Montreal	2,004 45
Pickled fish at St. John	149 82
Fish oils at St. John	83 40
Pot and pearl ash at Montreal	906 67
Leather and hides at Toronto	4,852 26
" " Levis	255 20
" " Montreal	6,061 01
" " Quebec	1,402 90

The fees on the hay inspected at Toronto have been deposited to the credit of the Receiver General, but I do not find that any of the other amounts have been deposited.

How is it that the inspection of these articles is not more general?

I am, sir, your obedient servant,

The Deputy Minister of Trade and Commerce. J. FRASER, *A.G.*

DEPT. OF TRADE AND COMMERCE, Ottawa, Dec. 27, 1910.

SIR,—I beg to acknowledge receipt of your letter of December 15, In reply beg to state that in the case of none of the articles referred to in your letter is inspection compulsory. The fees for the inspection of the same go to the Inspector with one exception: that of hay.

As regards hay, it was pointed out in my letter of the 14th instant, that at Montreal the Inspector for that article also retains fees. At Kingston, Peterborough and Toronto, the Inspectors of grain are also Inspectors of hay, but it is only at the latter place that any has been offered for inspection.

I am, sir, your obedient servant,

The Auditor General. F. C. T. O'HARA, *D.M., T. & C.*
